

Press Release

ICTS Consult named Finalist at the 2019 UK OSPAs.

London, 29 November 2018.

ICTS Consult, part of the ICTS Europe group of companies, is delighted to announce that we have been shortlisted in the **Outstanding Security Consultant** category at the 2019 UK Outstanding Security Performance Awards (OSPAs).

The Awards recognise and reward outstanding performance in companies and individuals across the security sector.

Ashley Fernandes, Managing Partner ICTS Consult commented, "After the tremendous achievement at the Security & Fire Excellence awards last week, I am, once again, truly delighted and proud of the ICTS Consult team for being shortlisted as a finalist at the prestigious OSPAs in 2019."

In a press release on the UK OSPAs website, Professor Martin Gill, Founder of the OSPAs commented, "The standard of entries this year has again been really high making the judging process as difficult as ever. Those that have been selected were marked independently by the judging panel and all reached a score threshold – ensuring they represent the very best in the industry."

Finalists will now go forward to the next phase of the competition and winners will be announced at the OSPAs Awards dinner, taking place on Thursday, 28th February 2019 at the Royal Lancaster London.

End.
